

We focus on finding new medicines and diagnostics and utilising data-based insights to evolve the practice of medicine and help patients live longer, better lives.

## About Roche

Throughout our 125-year history, Roche has grown into one of the world's largest biotech companies, as well as a leading provider of in-vitro diagnostics and a global supplier of transformative innovative solutions across major disease areas. Our commitment to our people, partners, stakeholders and, most importantly, our patients remains as strong as it was on the first day of our journey.

## We're revolutionising personalised healthcare

We bring the right treatments to the right patients at the right time. With our combined strengths in pharmaceuticals and diagnostics, we are better equipped to drive personalised healthcare forward.

## We're delivering sustainable value

Our ambition lies not only in transforming healthcare through innovative solutions, but also in our contributions to environmental protection, supply chain sustainability and social commitment.
